The stars of *Sex and the City* and other Hollywood A-listers swear by it. We're talking about the coveted Epicuren enzyme skincare treatment and facial products which are now available here. Sarah Jessica Parker is a fan of the Epicuren

Discovery Facial Emulsion and Instant Lift, while Kim Cattrall uses its Discovery Scrub. We recommend the Classic Epicuren facial (\$170 for 60 min) — an intense yet extremely gentle enzyme treatment that dramatically improves the skin's firmness, elasticity and texture. It's like a temporary facelift.

Epicuren enzyme skincare treatment and facial products available at The Sloane Clinic. Tel: 6333-2522 or 6477-1108.
