Couture lips

To add vibrant color and a rich, satiny finish to your lips, smooth on Givenchy Rouge Intimid, S\$6. Endorsed by Lin Tzye, the cream's iridescent texture of this lipstick goes on easily, leaving a kiss of rose, geranium and amber scent. The secret? Liquid opaline – multi-layered light-reflecting pigments originally used in fashion-technology, and added to a lipstick formula for the first time! Tip: For long-lasting colour, choose a lip liner that's close to that of your Rouge Intimid. Outline your lips, then fill in the colour evenly. Finally, apply your lipstick, but not too much, so the colour stays fresh. Available in 24 different shades.

Instant eye opener

Don't let your lower eyeliner or apply mascara to lower lashes. Instead, beauty guru and makeup artist to the stars Bobbi Brown suggests applying concealer to the hollow sides of your nose (the spot next to the eye socket) to open up your eyes and make them look bright and awake. She shows more tips in her new book, *Bobbi Brown Long-Lasting Makeup*, S\$8.95. Available at all Bobbi Brown counters and major bookstores.

Note Book

Fashion scents

If you love Italian labels, but find it hard to part with the money of a designer bag, you can at least wear the perfume – a highlight of the prize! Now, you can have fun layering and customizing your own unique scent.

Mac. Mac. Imagine stepping out of a cocoon of pure silk, intricately laced with the notes of the Rose, yuzu, cherry blossom and cedar wood – perfect elegant, serious woman. *Mission Inspired* by the Mediterranean Sea, this marvelous scent captures the sublime experience of a sea holiday on the Italian Riviera as a blend of bright bergamot, white sage and Tuscan iris.

Mission Arque EDT Spray 100ml, S\$8 and 100ml, S\$12

Female Tries

IS Clinical Innovative Facial

What it is This intensive treatment was voted Celebrity Facial Of The Year 2006 by *Indie*, and uses products from the famed IS Clinical brand – official skincare for the 2007 Academy Awards. Designed to rapidly resurface skin, it claims to smoothen the skin surface dramatically and encourage cellular renewal.

The process The treatment starts off with a deep cleanse to prep skin for the products to be applied later. After a thorough exfoliation, two masks were applied – a resurfacing skin peel containing sugar cane extract, retinol and apple extract, as well as a rejuvenating mask packed with antioxidants, hyaluronic acid and green tea gel. Then the potent vitamin C-rich IS Clinical Super Serum was applied to my

skin, followed by a Silver Ion Cloth, which was laid on my face for 20 minutes to heal my skin and boost its radiance. Finally, Hydracool Serum was applied to my skin to replenish cells and nourish it with essential vitamins. **Verdict** I loved how my skin looked and felt after! The facial worked wonders on my scars, enlarged pores and pigmentation. I didn't have to wear foundation for a few days after, because my skin looked as good as new! **Available** at The Sloane Clinic. Log on to www.sloaneclinic.com or call 6533-2522 or 6471-1108. Price is for a 60-minute session. **Final rating** ★★★★★
