COVER LOOK

# Wear it anywhere

Save smoky eyes, strong lip colours and other statement-making looks for trendier occasions. Sometimes simplicity is the most elegant.

Not good at blending eyeshadows? Cover girl Jeannie Aw's look is so easy to create. One shade is all you need: pick a slightly shimmering brown and dust onto lids. Apply the colour with a slight upwards flick and layer it so that it is darker towards the outer corner of the eyes.

Here, Jeannie shares her beauty tips.

**What's your favourite makeup look?**  
I don't like heavy makeup. Even during filming, I don't use foundation; only concealer and loose powder. I try to minimise the amount of makeup on my face, so my skin can breathe. I also use a face mist throughout the day to freshen up.

**How do you care for your skin?**  
After a long day of wearing makeup, I use a hydrating mask to calm my skin.

**Any skincare issues?**  
I'm not really concerned about being fair so I'm not big on whitening. But I use sunblock as I'm afraid of getting burnt.

**Do you indulge in facials?**  
I don't go for them because I'm quite lazy and I don't like to lie down for two hours. I've gone for only about 10 facials in my life. I stopped going because I noticed breakouts after each session. So now, I just cleanse thoroughly and use hydrating masks.
