It Really Works!

We gave reader Wong Sui Lee, 32, a stay-at-home mum, a makeover using Larry's makeup and cosmetic tips. Now, she looks five years younger!

Before

After

"I'm amazed at how young, energetic and flawless my face looks after the makeover! I don't usually wear much makeup, but Larry's tips are really easy to follow so I think I can replicate this look on my own too," says Sui Lee.

5 Primers we love

Face primers or makeup bases minimize the appearance of facial lines, blur imperfections, and have a texture that's velvety smooth.
